An anatomical diagram of the urinary system, showing the kidneys, ureters, and bladder. The kidneys are depicted in a light blue color, and the ureters are shown in a darker blue. The bladder is a large, rounded structure at the bottom. A red blood cell count input field is overlaid on the diagram, with a value of 6.1 entered. The input field is a light blue rounded rectangle with a black border. The text "Red Blood Cell Count" is positioned above the input field. The value "6.1" is centered within the input field. The background is a light blue gradient.
